

Aerospace Manufacturing Mission Statement

J&R Machine Works strives to deliver the service and value that meet or exceed our customers' requirements.

We commit to comply with all applicable requirements and constant improvement by training our people, upgrading equipment and eliminating nonessential practices.

We work hard to meet every customer's needs and make every effort to assure the highest quality product.

We are always looking forward to working with new customers and taking on new challenges.

Our Business

J & R Machine Works has been in Business in the Antelope Valley since 1989 and counts with over 25 years of experience. We are located on a 5-acre lot with over 3,100 square feet of workspace.

What we do

Located in Lancaster, California (60mi north of Los Angeles), we've done work for various fighter jets and the Apache Helicopter, as well as many other Aerospace projects. We've also worked on various commercial projects outside of the aerospace industry.

About us

From a Garage to a Full Featured Shop

Specializing in Aerospace

With over 25 years of experience, we'll make sure you get the best quality at the best price.

In 1989, Jesse Alvarado started a machining business in his garage with just one machine. Over 25 years later, that garage shop has evolved into a 3100 SQ FT machine shop complete with 14 CNCs and an office for Administration and Metrology.

Located in Lancaster, California (60mi north of Los Angeles), we've done work for various fighter jets and the Apache Helicopter, as well as many other Aerospace projects. We've also worked on various commercial projects outside of the aerospace industry.

We Take Pride in Our Work.

J&R Machine Works strives to deliver the service and value that meets or exceeds our customers' requirements. We commit to comply with all applicable requirements and to constantly improve by providing on-going training to our employees, consistently upgrading equipment and eliminating nonessential practices and improving our workflow.
